## PERSONAL PROJECTS

Image Search App (<https://images-searching-app.vercel.app/>)

- created and implemented a completely working image search application with a smooth design that makes use of modern technologies like HTML, CSS, and Javascript. A search option has been implemented for a seamless user experience, allowing users to look up any image they choose.

Portfolio (<https://personal-portfolio-gray-beta.vercel.app/>)

- View my skill set and creative abilities by browsing through my hand-picked personal web developer portfolio. Investigate a range of fascinating projects that highlight my expertise in HTML, CSS, JavaScript, and other technologies. Aspiring independent contractors should explore this platform to find areas of collaboration and to observe how innovation and functionality mesh together.

Weather Forecasting App (<https://weather-forecasting-app-osds.vercel.app/>)

- Finding out the weather where you are right now is really simple. The weather prediction app offers a comprehensive local and global weather forecast, including with current temperature readings in Celsius and wind speed as well as dawn and sunset times based on city time zones.

## CERTIFICATES

Python Certified by Kenpro Learning (05/2020 - 06/2020)

*have obtained a Python programming certification, proving my aptitude for this all-purpose language and my ability to use it to build dependable and efficient applications.*

My SQL Certification (2023)

*I have extensive basic knowledge for efficiently maintaining and organizing databases thanks to my successfully obtained MySQL certification. My ability to organize data, guarantee smooth retrieval, and optimize database performance is demonstrated by this qualification, which positions me to excel in any data-driven project I take on.*

Web Developer(2023)

*I was given a certificate in web development, which attests to my ability to develop innovative websites using HTML, CSS, Javascript, and Figma.*
